- **Reception for the East Central Section: Wednesday evening, June 23, 5:30 pm at the Marriott, Ballroom #2. Presentation by A&WMA Board President Joseph Martone, plus light food and soft-drinks. \$10.00 fee.**

### Keynote Presentation and Panel to Feature Local and National Speakers

Kicking off the ACE will be a dynamic presentation and panel addressing sustainable development. Beginning at 8:00 AM on Tuesday, June 22, the program will consist of local and nationally recognized speakers.

The Keynote Presentation will be delivered by Cinergy Chairman, Jim Rogers. Jim gave the Keynote 10 years ago in Cincinnati when Cinergy was formed and is one of the few repeat Keynote speakers. His presentation will be followed by a talented panel. Participating will be Dr. Bill Beranek, President, Indiana Environmental Institute, who is certain to liven-up the panel with his knowledge and dynamic presentation. Representing Dupont, nationally known for their sustainability efforts, is Dr. Paul Tebo. Sara Stokes, Senior Vice President from the Keystone Center will represent the academic community and former Congressman, Dr. Phil Sharp, will represent government as he speaks on behalf of the National Commission on Energy Policy.

Don't miss the exciting opening of the biggest environmental show in town!

***From the Chairman's Corner, by Stephen B. Dixon, Executive Board Chair of the Indiana Chapter***

It's hard to believe, but the 2004 Annual Conference and Exhibition is finally here. The members of the Local Host Committee and the Indiana Chapter have been working a long time to make this one of the most successful conferences ever...and by all the glowing reports I have heard, it will be.

Many thanks to those who have put so much time into spotlighting Indianapolis. The Pacers and the Colts have done so much to make Indianapolis an international focus - now it is your turn. We want the visitors to this year's conference to be impressed with Indianapolis, the heart of our Indiana Chapter, and with the benefits of being a member of the Air & Waste Management Association. The Conference will offer so much in the way of up-to-date technical information, tours, classes, and social opportunities. As Reggie Miller has said, "Home team doesn't mean staying home!"

Make sure you have your registration submitted - if not, it is not too late. Be part of the home team and make our visitors comfortable with our City and our State - help them by being ambassadors. Go out of your way to point out attractions and entertainment areas. We don't want our visitors to just head for their rooms at the end of the daily sessions. Talk up Indy and Indiana - let's make June 22-25 a week our visitors will remember!
